## Package Contents

DockCase x 1 USB C Cable (0.7 ft) x 1 User Manual x 1

## Connect the DockCase

Connect the MacBook to the DockCase with the provided USB C cable.

## Charge Your MacBook

The USB C PD (Power Delivery) port is designed to charge your MacBook. Connect the power adapter to the USB C port to charge.

## Expand Your MacBook

Connect your storage device, mouse, keyboard, monitor and more to extend your use on MacBook.

\* The MacBook Pro 13" displayed in the picture is just for illustration.

## Organize the USB-C Cable

DockCase comes with type-C cable that connects your MacBook Pro and the DockCase. A slot inside the case organizes the cable, so you can carry them together on the go.

## Indication Instructions

- Card reader indicator: turns green when inserting a card into one of the two card slots.

- Multi-functional indicator: red and blue lights indicating powering status; blue light indicating USB C PD charging; and green light indicating Ethernet working.

## Cooler fan

The new embedded cooler fan will help DockCase dissipate heat faster.

## Notes

Do not dismantle or repair the product by yourself. Keep the device away from liquid, humidity or moisture.

## Warranty

DockCase provides the product with 12 months warranty since the date of purchase. The warranty does not cover improper use of the product, such as dismantling the product by yourself. The warranty also does not cover products that purchased from other unauthorized seller.
